Snow Report

01-01-2022

Good Morning,

This is Erin with your Mountain Report for Saturday, January 1. Happy New Year! We got a few more inches of snow last night to close out the last bit of this epic storm cycle. Today is going to be mostly clear and cold, with a high near 10. Make sure to bring some extra layers when you join us in kicking off the sunny New Year on the mountain!

Hi! How can I help you today?

Please remember that early season conditions exist and unmarked hazards are present. We kindly advise you to ski and ride with caution and stay in control.

See you out there!

Winter Operations

Snowbird is expecting a delayed opening this morning as we work to perform avalanche mitigation.

Snowbird has reinstated its face-covering policy. **This policy requires all guests and employees, vaccinated or not, to wear a 2-layer face covering while indoors or riding the Tram.** For more information please visit our [Health & Safety](#) page.

The mountain is closed to all uphill travel.
